APPROVAL OF STATE ENGINEER

This is to certify that I have examined the foregoing application, and do hereby grant the same, subject to the following limitations and conditions: This permit is issued subject to all existing rights on the source. It is understood that the amount of water herein granted is only a temporary allowance and that the final water right obtained under this permit will be dependent upon the period of use and the average number of livestock served from the waters of this source. It is further understood that this right must allow for a reasonable lowering of the static water level at permittee's well due to any other ground water development in the area. The well shall be equipped with a 2-inch opening for measuring depth to water. If well is flowing, a valve must be installed and maintained to prevent waste. The State retains the right to regulate the use of the water herein granted at any and all times but does not take responsibility for the use of the Federal range.

The amount of water to be appropriated shall be limited to the amount which can be applied to beneficial use, and not to exceed 0.1 cubic feet per second or sufficient water to water 1,500 head of cattle.

Actual construction work shall begin on or before May 15, 1974

Proof of commencement of work shall be filed before June 15, 1974

Work must be prosecuted with reasonable diligence and be completed on or before May 15, 1975

Proof of completion of work shall be filed before June 15, 1975

Application of water to beneficial use shall be made on or before May 15, 1976

Proof of the application of water to beneficial use shall be filed on or before June 15, 1976

Map in support of proof of beneficial use shall be filed on or before

Commencement of work filed JUN 13 1974
